Colloids and Surfaces
A: Physicochemical and Engineering Aspects 129–130 (1997) vii–viii

COLLOIDS AND SURFACES A

# Contents of Volume 129–130

*(Special Issue: Prof. B.W. Ninham)*

*Foreword* ..... 1
Poly(ethylene oxide)-containing amphiphilic block copolymers in ternary mixtures with water and organic solvent: effect of copolymer and solvent type on phase behavior and structure
P. Alexandridis, P. Holmqvist and B. Lindman (Lund, Sweden) ..... 3
Surface and structural forces measured between silica surfaces in 1,2-ethanediol
D.T. Atkins and B.W. Ninham (Canberra, Australia) ..... 23
Light-induced phase transitions in stratifying liquid mixtures
N.F. Bunkin and A.V. Lobeyev (Moscow, Russia) ..... 33
Lens size dependence of contact angle and the line tension of the dodecane–water–air system
P. Chen, S.S. Susnar, C. Mak, A. Amirfazli and A.W. Neumann (Toronto, ON, Canada) ..... 45
Mechanochemical reactions of ilmenite with different additives
Y. Chen, J.S. Williams and B. Ninham (Canberra, Australia) ..... 61
Is the long-range hydrophobic attraction related to the mobility of hydrophobic surface groups?
H.K. Christenson and V.V. Yaminsky (Canberra, Australia) ..... 67
An historical review of surface force measurement techniques
V.S.J. Craig (Canberra, Australia) ..... 75
Lyotropic chromonic liquid crystals. Neutron scattering studies of shear-induced orientation and reorientation
T.L. Crowley, C. Bottrill, D. Mateer (Salford, UK), W.J. Harrison (Harrow, UK) and G.J.T. Tiddy (Salford, UK) 95
Hydrophobic radiofrequency plasma-deposited polymer films: dielectric properties and surface forces
C.J. Drummond, Z.R. Vasic, N. Geddes (Victoria, Australia), M.C. Jurich (San Jose, CA, USA), R.C. Chatelier, T.R. Gengenbach and H.J. Griesser (Victoria, Australia) ..... 117
Nanotribology of thin liquid-crystal films studied by the shear force resonance method
C.D. Dushkin and K. Kurihara (Nagoya, Japan) ..... 131
Preparation and spectral characteristics of gold particles in Langmuir–Blodgett films
D.J. Elliot, D.N. Furlong, F. Grieser, P. Mulvaney and M. Giersig (Victoria, Australia) ..... 141
The lifetime of a colloid-sized gas bubble in water and the cause of the hydrophobic attraction
S. Ljunggren and J.C. Eriksson (Stockholm, Sweden) ..... 151
Bending rigidity of ionic surfactant interfaces with variable surface charge density: the salt-free case
A. Fogden (Lund, Sweden) and J. Daicic (Canberra, Australia) ..... 157
Vesicle formation and disintegration: a water–hydrotrope–nonionic surfactant system
S.E. Friberg, S. Campbell, L. Fei, H. Yang, R. Patel (Potsdam, NY, USA) and P.A. Aikens (Wilmington, DE, USA) 167
Interactions between cellulose and colloidal silica in the presence of polyelectrolytes
M. Holmberg (Stockholm, Sweden), R. Wigren, R. Erlandsson (Linköping, Sweden) and P.M. Claesson (Stockholm, Sweden) ..... 175
Some applications of classical analysis in physics and physical chemistry
B.D. Hughes (Victoria, Australia) ..... 185
Topological transformations mediated by bilayer punctures: from sponge phases to bicontinuous monolayers and reversed sponges
S.T. Hyde (Canberra, Australia) ..... 207
Finite periodicity, chemical systems and Ninham forces
M. Jacob (Zürich, Switzerland) and S. Andersson (Löttorp, Sweden) ..... 227

A comparison of the interaction forces between model alumina surfaces and their colloidal properties
M.E. Karaman, R.M. Pashley (Canberra, Australia), T.D. Waite (Sydney, Australia), S.J. Hatch (Canberra, Australia) and H. Bustamante (Sydney, Australia) ..... 239
The isoelectric state at the solution/air interface – effect on the stability of foams and foam films from nonionic surfactants
K. Khristov, D. Exerowa and R. Yankov (Sofia, Bulgaria) ..... 257
Standing wave oscillations in axon membranes and the action potential
K. Larsson (Lund, Sweden) ..... 267
Chemical and enzymatic ester hydrolysis in a Winsor I system
A. Lif (Stenungsund, Sweden) and K. Holmberg (Stockholm, Sweden) ..... 273
Triply-periodic balance surfaces
E.A. Lord (Bangalore, India) ..... 279
Surface and colloid properties of cyclic amides II. phase separation, surface activity and micellization in mixtures of *N*-hexyl-2-pyrrolidone and water
A. Lou, B.A. Pethica and P. Somasundaran (New York, NY, USA) ..... 297
Lucretius or the philosophy of chemistry
A.L. Mackay (London, UK) ..... 305
Effect of added cosurfactant on ternary microemulsion structure and dynamics
L.J. Maidment, V. Chen (Sydney, Australia) and G.G. Warr (Sydney, Australia/Cranbury, NJ, USA/Princeton, NJ, USA) ..... 311
Effects of ion hydration in double layer interaction
S. Marčelja (Canberra, Australia) ..... 321
On the bicontinuous microstructure induced by a guest protein in a typical AOT microemulsion
M. Monduzzi, F. Caboi and C. Moriconi (Cagliari, Italy) ..... 327
Interactions between salivary films adsorbed on mica surfaces
T. Nylander, T. Arnebrant and P.-O. Glantz (Lund, Sweden) ..... 339
Surface-tension suppression of lamellar swelling on solid substrates
V.A. Parsegian and R. Podgornik (Bethesda, MD, USA) ..... 345
A high temperature X-ray diffraction study of the crystallisation of amorphous ball-milled zircon
T. Puclin and W.A. Kaczmarek (Canberra, Australia) ..... 365
Cross-property correlations for disordered materials
A.P. Roberts (Oxford, UK) and M.A. Knackstedt (Canberra, Australia) ..... 377
Grafted rod–coil polymers in poor solvents: turnip and jellyfish surface micelles
E.M. Sevick and D.R.M. Williams (Canberra, Australia) ..... 387
Leadership
A.W. Snyder (Canberra, Australia) ..... 397
Changes in form and relative stability of micelles in multicomponent systems
N.V. Romeu (Santiago de Compostela, Spain) and G. Taddei (Florence, Italy) ..... 399
Theory of phase separation for a solution of tridisperse rod-like particles
G.J. Vroege and H.N.W. Lekkerkerker (Utrecht, The Netherlands) ..... 405
Cavitation, polywater and hydrophobic attraction by bridging by flimsy shells
V.V. Yaminsky (Canberra, Australia) ..... 415
Freezing-induced hydration forces between phosphatidylcholine bilayers—the effect of osmotic pressure
Y.H. Yoon (Sydney, Australia), J. Pope (Brisbane, Australia) and J. Wolfe (Sydney, Australia) ..... 425
The DOC model of microemulsions: microstructure, scattering, conductivity and phase limits imposed by sterical constraints
T.N. Zemb (Gif sur Yvette, France) ..... 435
Author Index ..... 455
Subject Index ..... 457
